

Administer your Fund from a single service partner

BeneSys has been providing **integrated software solutions** for self-administered Taft-Hartley, Municipal, and VEBA Trust Funds for more than 40 years.

Our benefit administration software, **BenefitDriven**, was developed completely in-house and is continuously improved by our internal IT staff. We offer an integrated software solution with the full range of capabilities and flexibility needed to administer your Fund from a single service partner. BenefitDriven is highly automated and provides accurate and efficient processing so your Fund can focus on serving your members and their families.

BenefitDriven capabilities

Administrative services

- Robust reporting capabilities
- Emphasis on cybersecurity
- Regulatory compliance monitoring
- IT support

Employer remittance

- Contributions, collection, and reciprocity payments
