CONTRIBUTIONS TO CLAIMS

Comprehensive Software Solutions for Self-Administration

BenefitDriven was designed to deliver all facets of benefits administration technology to multi-employer benefit plans. Our cloud-based, fully-integrated platform is highly-automated with data and information flowing automatically between all modules to support the full range of benefits your fund needs to manage. Supporting the proper calculation and daily administration of various benefits, BenefitDriven allows for enhanced ongoing communication, management, accounting, and auditing activities required to serve all of your stakeholders.

BenefitDriven is backed by our experienced team of industry professionals who are committed to providing the highest level of service, along with the best technology available, to make our clients' work more accurate and efficient.

Serving over 220 funds across the nation, we understand the priorities and needs of the Taft-Hartley community. We designed our easy-to-use, secure solution to help your fund put the focus where it belongs - providing high-quality service and care to your members and their families.

Eligibility
Highly automated system that handles all aspects of eligibility tracking and reporting.

Claims Processing
Fully-integrated, powerful claims administration designed for end-user configurability with intelligent automation and advanced workflow.

Contributions
End-to-end solution for managing contributions, collections and reciprocity.

Pension
Simplify and streamline defined benefit and defined contribution plan administration to better serve your members.

Self-Service Portals
Convenient, secure web portals for members, providers, employers and trustees.

Mobile App
Provide participants with secure, 24/7 access to benefit information with the BenefitDriven mobile app.
